

CHILDHOOD IS
FOR EVERYONE

ANNUAL REPORT 2022

YUPPI CAMP

free of charge therapeutic recreation camps and
activities for children with cancer, diabetes or
other autoimmune diseases

"I never thought Julia would climb the climbing wall. I took a break from our activity just to see her and indeed she did it. I felt like I was floating ten feet above the ground. And Iulia was so happy! She saw herself doing something she had never done before. I got back a happy and cheerful little girl."

Cosmin, family camp participant, father of Iulia, who suffers from juvenile arthritis

"Until now, I never thought I'd be able to do an activity without worrying about my child's blood sugar."

Elena, parent participant in the family camp, mother of Delia, who has diabetes

*"I loved every moment of the camp, but the best part was when we rocked in the climbing program. I felt like a dove, and dove means **FREEDOM!**"*

Ana, participant in the camp for children with diabetes

"Yuppi is the camp I liked the most, because here we are all alike, there are no differences between us."

Iulian, participant, camp for teenagers with diabetes

THE TEAM

21

Dear members of the Yuppi Camp family!

It is not easy to write about 2022. It was a year of mixed feelings. I had thought that once the pandemic was over, everything would be back to normal, that we would be able to start working on our dream of having our own campground. Instead we had a difficult year, the crisis affected us financially, too, and that makes us sad. But beyond that, we have a very strong feeling: gratitude. We are grateful for having you with us! For being there for us both in the hard times and in the happy times.

Knowing that we have so many friends in our hearts, we have been able to make a difference, to give chronically ill children and their families unforgettable memories, days without the worry of illness, days when they can enjoy life and childhood! This gives us strength to continue!

But we can't do this all alone. We need your help. Together we can give back the childhood stolen by disease. Because all children deserve the chance of childhood!

Ionescu Enikő, Executive Director

WHAT IS IT LIKE TO LIVE WITH A CHRONIC ILLNESS?

In Romania, about
400 children
are diagnosed with cancer every year and
70% go into remission.

*according to the Romanian Childhood Cancer Registry

In Romania there are about
4.000
children with insulin
dependent diabetes.

*according to data of the Romanian Ministry of Health

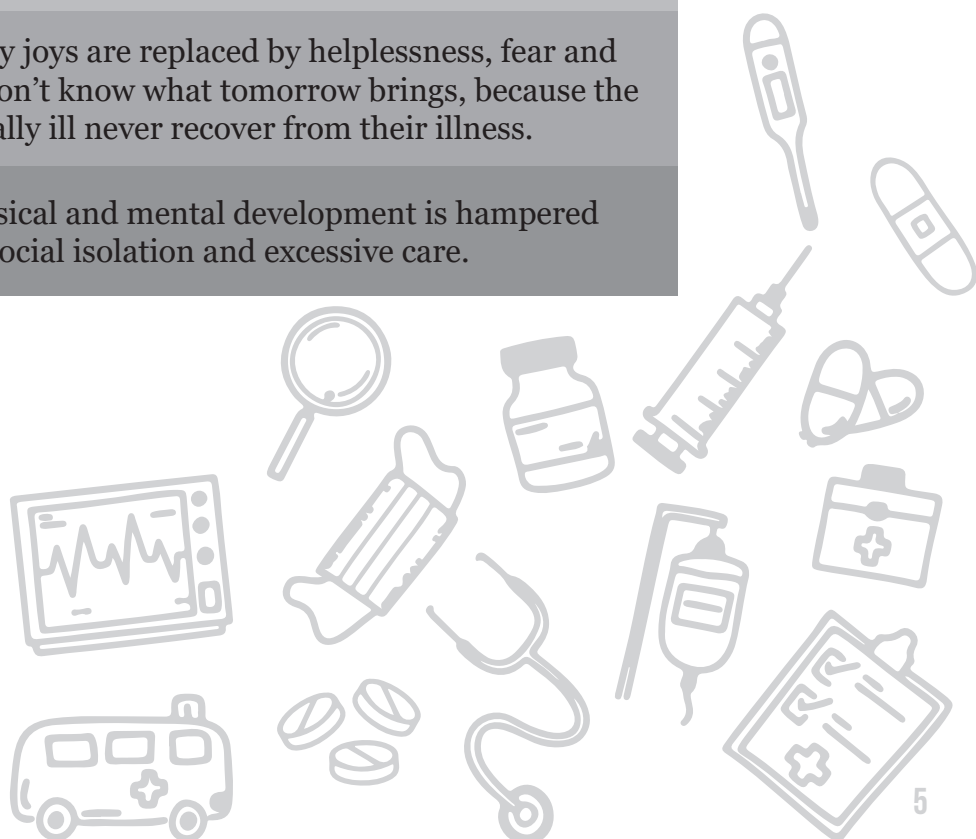

The number of children with other rare autoimmune diseases such as juvenile arthritis, celiac disease, asthma, haemophilia, etc. is not known because medical and psychosocial services dedicated to them are poorly developed.

Life with illness means a new life, a different life,
a harder life for both the child and the parents.

Small everyday joys are replaced by helplessness, fear and
anxiety - they don't know what tomorrow brings, because the
chronically ill never recover from their illness.

A child's physical and mental development is hampered
by social isolation and excessive care.

BUT...

YUPPI CAMP IS A PLACE WHERE DISEASE IS NOT AN OBSTACLE

"For me my favourite moment was when I had the opportunity to meet people like Heni and Noemi. They are important to me, because until now I've never met anyone who has the same illness as me."

"Camp Yuppi is a magical and beautiful place where I personally forget that diabetes is a burden sometimes."

**YUPPI CAMP IS A
PLACE WHERE YOU
MAKE FRIENDS WHO
ACCEPT YOU FOR WHO
YOU ARE.**

Antonia was the youngest in cabin 3, which hosted the teenage girls in Yuppi camp. She has had diabetes since she was 7 years old and also has a hormonal condition that has slowed her development. Because she was younger, the girls ignored her: they left her out of activities, didn't include her in discussions. But whenever the girls would put make-up on each other, Antonia would ask them to teach her. She wanted to be part of the group. Eventually she won them over with her enthusiasm, her warm and sincere hugs, her care for each one of them.

At the last evening camp talk Alexandra, the girl she shared a room with, told her

"without you cabin 3 would not be complete".

Antonia, who has diabetes, needs to feel accepted. She needs to feel normal. To share her feelings, her worries, her fears caused by her illness with friends who understand her.

One place, where this happens, is Yuppi Camp, offering free of charge therapeutic recreation camps.

**Disease steals childhood. Help us give it
back to the children who need it so badly!**

WHAT ARE YUPPI CAMPS?

Yuppi Camp is the first camp in Romania to use the revolutionary method of therapeutic recreation. The free camps are aimed at children and teenagers with cancer, diabetes or other autoimmune diseases and their families. So far, since 2011, 1,483 children and parents from all over the country have participated in Yuppi Camps.

HOW YUPPI WAS BORN

Yuppi Camp was established in 2011 to provide an effective way of complementary therapy for children with chronic diseases in Romania. The model used was that of Bátor Tábor in Hungary, a large-scale therapeutic recreation camp. In fact, Bátor Tábor is still an important partner of Yuppi Camp.

METHOD USED

We are the first camp in Romania to use the revolutionary method called therapeutic recreation with a positive impact on many aspects, including children's self-confidence and independence. The success of therapeutic recreation lies in the fact that the beneficiaries participate in activities where they have the opportunity to discover their own skills and talents (rather than their limitations) in order to improve their self-confidence. At Yuppi camps children and adolescents with chronic illnesses are involved in therapeutic recreation activities such as climbing, horse riding, canoeing, archery, handicrafts, photography, theatre, music, magic tricks.

LOCATION, PERIODS, TYPES OF CAMPS

The campground rented and used year after year by Yuppi is located in Șăulia, Mureș county. Here we have organized three or even four camps per year depending on the age group and disease: camps for children with diabetes, for teenagers with diabetes, for children and teenagers with cancer or autoimmune diseases and for families with children with cancer.

In 2022 we organised 3 camps and a family weekend. The first camp was dedicated to children and young people with diabetes, the second, for the first time in Romania, to children with cancer or autoimmune diseases aged between 6 and 18 and their healthy siblings, and the third camp was for families where the child suffers from cancer or another autoimmune disease. The Family Weekend took place at the end of September for chronically ill children aged between 0 and 18 and their families.

SPECIALISED HELP

In Yuppi Camp, volunteers, specialised healthcare staff and members of the organising team are actively present alongside the children. Children are also recruited with the help of doctors before coming to the camps.

In 2022, 176 volunteers participated in Yuppi camps with the children and their families, constantly interacting with them, helping them to overcome their fears and rediscover their strengths. We also enjoy the support of 96 specialists in healthcare from all over the country in the recruitment process.

EVENTS AND CAMPAIGNS

Yuppi Camp for Ukrainian people

Together with you, Yuppi Camp has been helping refugees from Ukraine whose lives have changed overnight due to the war. We got involved through several actions: Yuppi Camp volunteers were present at the border to help with translations, we organised several activities for children in Cluj-Napoca and Târgu Mureş and we offered specific products - personal hygiene products, sugar, lactose or gluten free products - to refugees, especially children and women who were in transit and needed punctual help at the border.

“Mrs Liliya crossed the border alone, with two suitcases and only one goal: to get to Spain to her grandchildren. The thought of seeing them soon made her smile. But because of her health problems, she could only travel by plane because she would not have lasted the many long hours on a bus or train. Although she

seemed fearless, she worried about what was to come: who would help her buy a plane ticket? How would she get to the airport? Would she be able to speak to someone in Ukrainian? What would she give her grandchildren once she got there?

When I greeted her gently in a language she knew, it was as if a stone was lifted from her heart. She was safe again. I led her to the tent set up by the Romanian Maltese Relief Service, offered her hot tea and food. She was very grateful. I helped her to get to Suceava, where other volunteers would wait for her and guide her to the airport. Before leaving, I gave her some clothes to take to her grandchildren. In her goodbye hug I felt gratitude”, says Natalia, translator from/into Ukrainian and Russian, Yuppi Camp volunteer at Siret Customs.

OTP Charity Tour

four days of charity cycling

“I’ve been to a lot of events, I’ve met a lot of people as an athlete, but I’ve never had a feeling like the one I had when I arrived at Yuppi Camp. Bright eyes, excited kids cheering us on, even though they are the real heroes.”

– Emese, charity cyclist.

“It doesn’t take much more than meeting those kids we cycled for over the 4 days. I’m sure that for all of us this is a huge satisfaction, we certainly won’t forget the children in Yuppi camp”

– Cristina, Crina and Mara, charity cyclists

4 days of cycling, 290 km covered by 29 cyclists, 7 of which were with us from start to finish, maximum elevation 717 m, average speed between 14-20 km/h, a donation of 11.511 RON raised by the cyclists to ensure free participation of families in the weekend of relaxation. These are the numbers of the first OTP Charity Tour, organised at the end of September at the initiative of OTP Bank Romania and with the help of the Master Ski & Bike Club.

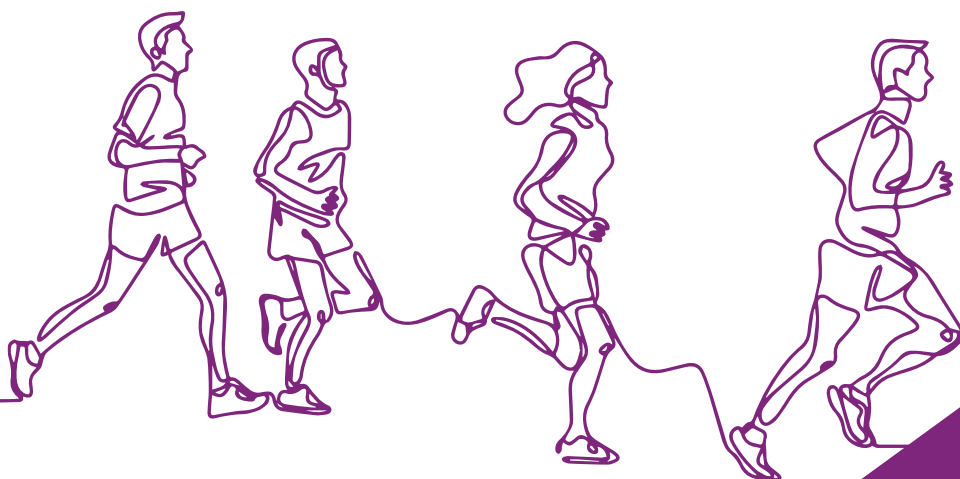

Fuss NEKI Csík

many miles of charity

In May we participated with a fantastic team in the Fuss NEKI Csík fundraising charity sports event.

The team could be joined by anyone from any corner of the world, so even if he wasn't physically in Miercurea Ciuc, we had one of Yuppi's official ambassadors, comedian Tóth Szabolcs, who included in his schedule a long walk during their tour. But we also had participants from London, Budapest and Sfântu Gheorghe.

Lali, an old friend of ours and a huge fan of photography - who had already cycled a few kilometres before the event - joined us from Budapest, and cycled in style: his route was designed so that the Yuppi logo stood out at the end. Bori, the youngest ever Yuppi ambassador, just one year old, rode together with her father Levente, a Yuppi camp volunteer. Lóri, aged 12, was diagnosed with diabetes last year, so we had him with us at camp too, and at the event Lóri ran the set kilometres at super speed. Annabella, a sweet girl we met last year at camp, came with her mum from out of town to meet the Yuppi team and run with them, so she finished the race with a big smile, hand in hand with Yuppi Camp volunteers.

GEDEON RICHTER LTD.

GEDEON RICHTER FAMILY DAY

"We had so much fun with the kids, I didn't even notice that at one point I was messy with glue and glitter and paint up to my elbows," says Enikő, executive director of Yuppi Camp, who participated in the activities organised for Gedeon Richter employees and their families on Children's Day.

We prepared various activities for the participants such as crafts, handicrafts and a treasure hunt suitable for the whole family.

Gedeon Richter is a trusted partner of Yuppi Camp who has been with us for many years because, as they say, we share common values and believe in our cause.

PETTRY EMPLOYEE DAY

"How nice that we had the opportunity to get to know each other better and laugh so much together as one big family!", Pettry employees told us at the end of Employee Day. Our trainer, Juckó, prepared games and exercises for the over 80 employees of the company, through which the team could get to know each other better and connect.

Petry is a long-standing and trusted partner of Yuppi Camp, with whom we have been able to bring several projects to life, including teambuildings and trainings for employees.

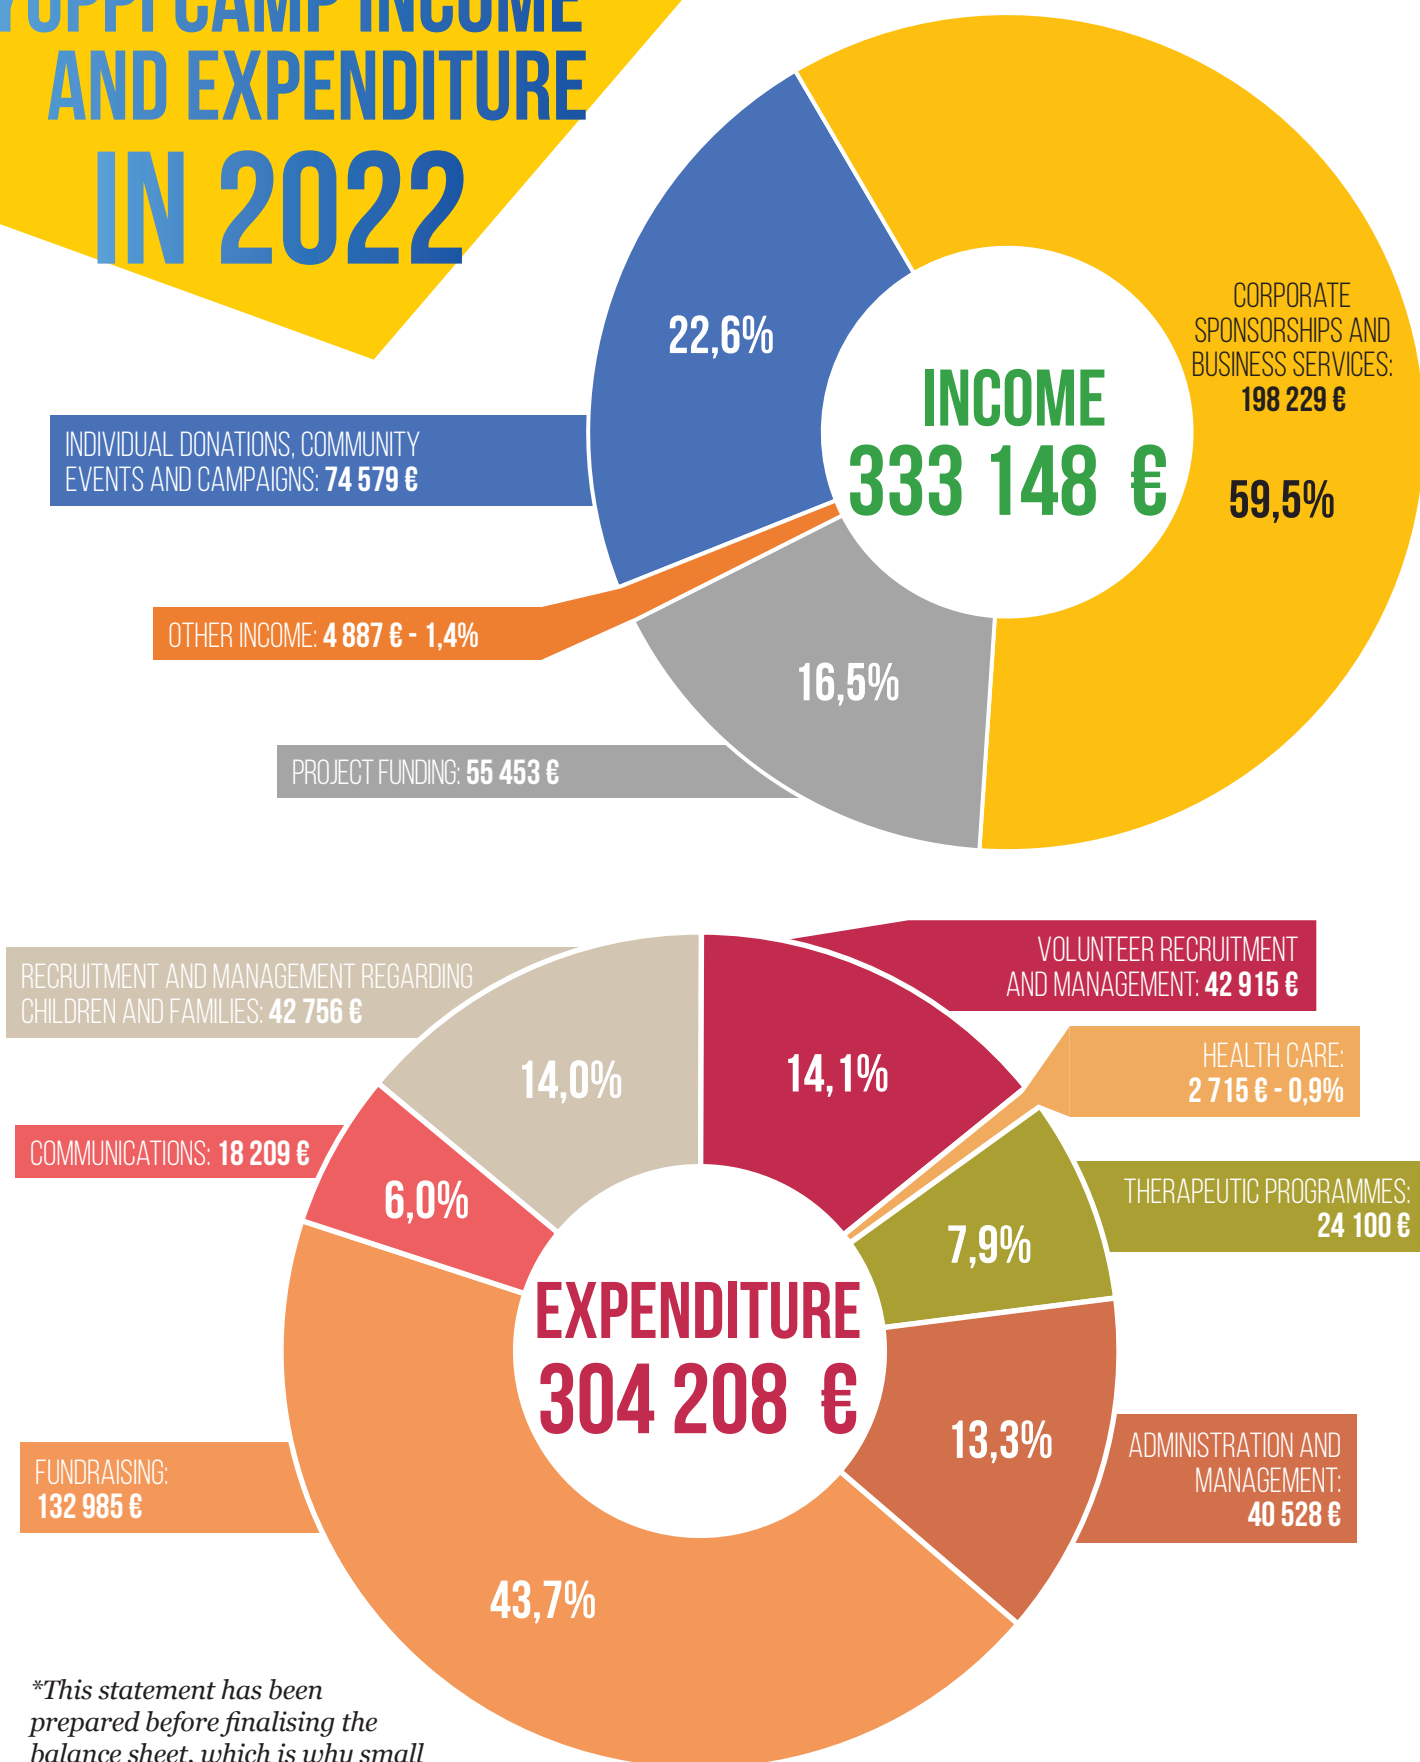

CAMEL
CODING

LEADERSHIP TRAINING FOR THE CAMELCODING TEAM

"I have been part of the Yuppi Camp family for a long time, I have attended leadership trainings several times that prepared me to be part of camp leadership. That's when I saw how effective these sessions can be. Learning the Yuppi style, knowing how professional the trainers are, I decided that our company's team could benefit from it, too. I wasn't wrong: already from the first 15 minutes everyone was very open, very receptive and collaborative. And the trainers did an excellent job, they adapted very quickly and easily to all the situations encountered within the team. The effects of the training can be seen on the team: people are more motivated, pay more attention to each other, the team spirit is much stronger, and now we have people in the team ready to lead feedback sessions with their teammates. And the fact that through this training we help children with chronic diseases to participate in Yuppi camps for free was the icing on the cake!"

- Szilágyi Levente, Managing Partner CamelCoding

YUPPI CAMP INCOME AND EXPENDITURE IN 2022

**This statement has been prepared before finalising the balance sheet, which is why small deviations may occur.*

We thank both the companies that supported us in 2022 and individuals for their support. We are grateful to our recurring donors, participants and donors at charitable events, those who contributed 3.5% of their taxes, and all those who through financial or in-kind donations contributed to the carefree childhood of chronically ill children.

Together with you we were able to give children and young people suffering from cancer, diabetes and other autoimmune diseases a chance at childhood - THANK YOU for being part of the great Yuppi Camp Family!

“Mum, I’ll inject my insulin myself”

The story of Matthew and the disease that never goes away.

How can you take care of your biggest dream? For nine years, Elena and Florin waited for a baby. He was born after many trials, doubts, prayers and failed hormone treatments. When she found out she was pregnant, Elena felt like she was on cloud nine. Their family was finally complete.

Then came the day Matthew was diagnosed with insulin-dependent diabetes. It was the fall of 2017, the year the child started school. He’d lost a lot of weight over the holidays, but Elena thought it was from running and soccer over the summer.

*Everything went smoothly, it was like a dream. Then the blow came. The diagnosis we weren’t prepared for. **I couldn’t understand: why him, why us, why the child we wanted so much!***

While Elena tells me the story, Matei and Stefan, his younger brother, participate in the evening camp games. Yuppi Camp is the first camp of their lives, **the first time they’ve slept anywhere but at home or in a hospital ward.**

At the beginning of the treatment, I was crying my eyes out as the nurses taught me

how to give him the injections. I was crying so hard that Matei said to me: “Mum, I’ll do it.”. The child was always more manly than me.

Now I can talk about it, but before I didn’t have the courage to talk to anyone. I was down. I needed a psychologist. The most painful was when my youngest would tell me: “Mum, when is Matthew going to get rid of these injections?”

Before we left for the camp, the little one told his father, who stayed at home: “Keep your phone charged and we’ll call you. It’s going to be hard without you, I don’t know if we can make it.”

*The guys didn’t call even once after we arrived. They were so good, they had no time to waste on the phone. **That finally made her laugh.** They love it, they made friends with the kids at the camp. These days, I’ve been getting inside the kids’ heads, forgetting about the problems. At some point, I realised I have missed calls from my husband and that doesn’t fill me with worry.*

After a diagnosis, a family’s life with a child suffering from a disease will never be the same. But those moments when everything seems normal again are priceless. We at Yuppi Camp can’t cure children, but we can give them a few days without the worry of illness, a breath of fresh air in all their suffering.

The disease steals families’ peace of mind. Help us give it back! Here’s how you can do it.

HOW CAN YOU SUPPORT US?

INDIVIDUALS

I WANT TO OFFER FINANCIAL OR MATERIAL SUPPORT

I'd help with something other than money

In-kind donations

Many people would rather help us with donations of equipment and materials. Be one of them!

Redirection of 3.5% of income tax

It only takes a few minutes to fill in form 230, and this funding is very important to us every year.

I would help with money

Debit Direct

Support us with an amount in the value of three coffees each month for one year.

Cash or online donation on the website

You can support us at any time with any amount of money through the Yuppi Camp website, or you can transfer it directly to our bank account.

I WANT TO GET INVOLVED AND INVEST MY ENERGY AND RESOURCES

Charity sport

Join the Yuppi sports team. Together, through sport, we raise money for camps.

Organising a charity event

Plan a movie night with friends, a coffee date or any charity event for Yuppi!

Birthday donation

Encourage your friends and family to donate the price of gifts for your birthday this year to Yuppi!

Volunteering in the organisation

Be a Yuppi Camp volunteer and help us grow the organisation!

COMPANIES

We have a budget for sponsorship

Sponsorship agreement

Partner with us year after year and help ensure the sustainability of our organisation! Redirect a FREE portion of your income tax to Yuppi Camp each year and help us help as many children with chronic illnesses as possible.

NO BUDGET FOR SPONSORSHIP

DONATIONS OF PRODUCTS OR SERVICES

Donate equipment and materials needed for camp activities and training. Support us through services which do not involve any costs to you, but for us are priceless! You will find our wish list on our website.

Through the HR department and CSR - for clients -

Yuppi brand products
(postcards, tote bags)

Cause-related marketing

Donate a percentage or a fixed amount of the price of a product or service sold by your company to Yuppi Camps

Our charity partner

We organise events together.

Be a Yuppi Camp volunteer and help us grow the organisation!

Volunteering

Charity sport

Make a running team or swim team with your peers to support our camps!

Through the HR department and CSR - for employees -

Promoting opportunities for individual support among employees

Direct debit – support us with an amount in the value of three coffees each month for one year. Redirect 3.5% of your income tax by completing form 230.

Internal charity events

Are there people among your colleagues who like to cook or create handmade products? Organise a bake sale or charity sale together so they can show their talents to their colleagues! All corporate events can be enhanced with a charity partner.

Teambuilding / family day / training

Organise your team's Family Day, Children's Day, a teambuilding or Yuppistic-style training with fun activities, challenges and non-formal learning, online, at the camp or another location of your choice!

If you need more information on how you can support Yuppi Camp you can also learn more from our fundraising coordinator.
