

ANNUAL REPORT 2025

YUPPI CAMP

Free of charge therapeutic recreation camps and activities for children and teenagers with cancer, diabetes or other autoimmune and serious illnesses

"What I liked most about the Yuppi camp was the community, because it helps a lot to know that we are not the only ones going through such situations. The bravest thing I did was show who I truly am, without the fear of being judged."

- Maria, a mother who participated in the Family Camp for children with cancer or other chronic illnesses

"One thing that helped me overcome an obstacle was encouragement. Before, I felt small, I was scared, but afterwards I felt like the bravest person I had ever known."

- Nicolae, participant in the Family Camp for children with cancer or other chronic illnesses

"At the Yuppi camp, I learned that I am hardworking and understanding."

- Alex, participant in the Family Camp for children with cancer or other chronic illnesses

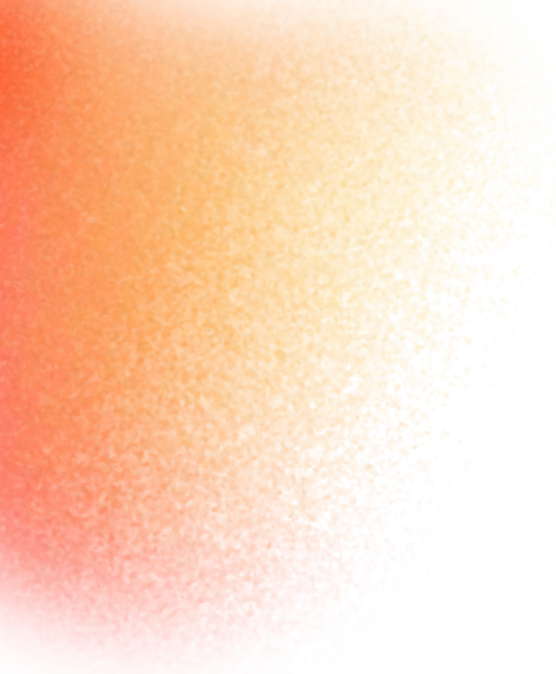

"At the camp, I liked that I made new friends. I learned that I must overcome my fears and that I can trust the people around me."

- Sebi, participant in the Siblings Camp

"The most beautiful experience so far since the onset of diabetes in our lives. Perfect organisation, diverse and relaxing activities — we will definitely be back next year."

- a family who participated in the Family Camp for children with diabetes

How can you help chronically ill children? **28**

Yuppi Camp team **30**

Dear friends of Yuppi Camp,

In every smile of a chronically ill child, in every moment of peace experienced by a family, and in every instance of genuine joy at camp, there is something of the good that you have made possible. Every year, we have the privilege of witnessing how, beyond illness, treatments, worries, and uncertainty, something extraordinary is born: courage, friendship, trust, hope. The children who come to us are not simply attending a camp. They are entering a place where they are welcomed with gentleness, seen for who they are, and encouraged to be, simply, children. And this is possible because of you.

In a year marked by social, economic, and political challenges, your support has meant even more to us. We know it has not been an easy time, that every decision has required greater caution, greater care, and greater deliberation. That is precisely why the fact that you have chosen to remain by our side — and by the side of the children from Yuppi Camp — carries a deep and moving significance.

Dear sponsors, donors, and partners, thank you for your trust, your generosity, and for choosing to support not just a cause, but the childhood of children who need hope, normalcy, and a sense of belonging.

Dear volunteers, thank you for the love, time, energy, and tenderness you give. Your presence changes lives in ways no report can fully capture or balance sheet contain.

We see you, we value you, and we thank you. Everything we build together bears the mark of your kindness and your belief that no child should ever feel alone in their struggle.

Thank you for standing with us in 2025 and for making it possible, once again, for illness to make room for joy, friendship, and hope.

With deep gratitude,
Ionescu Enikő
Executive Director

WHAT IS IT LIKE LIVING WITH A CHRONIC ILLNESS?

Eric is 8 years old. At the age of four, he was diagnosed with type 1 diabetes.

"It was September 3, 2021, and we were on our way from Constanța to Bucharest, holding onto the hope that the diagnosis given in Constanța wasn't real. I hoped it wasn't my child — the one showing signs of lethargy, the one with frequent urination, the one who had already been given a diagnosis of type 1 diabetes with an HbA1c of 13. I was praying that those test results weren't true, but I will never forget our admission at 12:14. It hit me like a thunderbolt, because in that moment it truly sank in — and I was told clearly and plainly: your child has diabetes. Without knowing what that meant, without knowing what I had to do. I was hoping there would just be a pill for him and then we could go home.

But we stayed for seven days. Days in which I came to terms with it through tears — so many tears. 'Came to terms' is saying too much, but I tried to pull myself together and keep moving forward. I would put Eric to bed and then I would cry, read, research, and tell my husband that we were going to be fine — even though I didn't believe I would be fine myself. But I had to keep projecting the idea that everything would be okay, that I had the control.

And the first day we met with the doctor — it was two days after admission — she came and said: this is the insulin pen, from now on you need to manage. And I realised that his life was in my hands, that I had to set the crying aside, that I had to learn how to take care of him, and that I had to accept that from this point on, the friend — as I call it — sweeter than the law allows, is part of our lives", shares Andreea, Eric's mom.

In Romania, more than **400** new cases of cancer are diagnosed each year in children and young people aged 0 to 19. The number is increasing.

***According to the National Pediatric Onco-Hematology Registry**

In Romania, there are about **4,000** children with insulin-dependent diabetes, aged between 0 and 14 years.

***According to the National Institute of Public Health**

The number of children with other autoimmune illnesses, such as juvenile arthritis, celiac disease, asthma, hemophilia, cystic fibrosis, etc. is unknown because the medical and psycho-social services dedicated to them are poorly developed.

Life with illness means a new life, a different life, a harder life for both the child and the parents.

The place of small everyday joys is taken by helplessness, fear and anxiety - not knowing what tomorrow brings, because the chronically ill never recover from their illness. A child's physical and mental development is hampered by social isolation and constant care.

**Illness steals childhood.
You can give it back!**

WHAT IS YUPPI CAMP?

Yuppi Camp is the first camp in Romania to use the revolutionary method of therapeutic recreation. The free camps are aimed at children and teenagers with cancer, diabetes or other autoimmune and serious illnesses and their families. So far, since 2011, 2197 children and parents from all over the country have participated in Yuppi Camps.

How Yuppi was born: Yuppi Camp was established in 2011 to provide an effective complementary therapy for children with chronic illnesses in Romania. The model used was that of Bátor Tátor in Hungary, a large-scale therapeutic recreation camp. In fact, Bátor Tátor is still an important partner of Yuppi Camp.

Method used: We are the first camp in Romania to use the revolutionary method called therapeutic recreation with a positive impact on many aspects, including children's self-confidence and independence. The success of therapeutic recreation lies in the fact that the beneficiaries participate in activities where they have the opportunity to discover their own skills and talents (rather than their limitations) in order to improve their self-confidence. At Yuppi camps children and adolescents with chronic and serious illnesses are involved in therapeutic recreation activities such as climbing, horse riding, canoeing, archery, handicrafts, photography, theatre, music, magic tricks.

Location, periods, types of camps: So far this year, Yuppi Camp has rented and used campsites in the locality of Șăulia, Mureș County, and in Vărșag, Harghita County. We organise three or even four camps per year, depending on the age group and illness.

In 2025 we organised 4 camps: the Family Camp for children with diabetes aged 0-10 years and their families, the Sibling Camp for children with cancer or autoimmune diseases aged 10-18 years and their siblings, Family Camp for children with cancer or autoimmune diseases aged 0-10 years and their families and the Camp for Teens with diabetes aged 10-18 years.

Specialised help: In Yuppi Camp, volunteers, specialised medical staff and members of the organising team are actively present alongside the children. Children are also recruited by doctors before coming to the camps.

In 2025, 177 volunteers participated in Yuppi camps with the children and their families, constantly interacting with them, helping them to overcome their fears and rediscover their strengths. We also enjoy the support of 110 specialists in healthcare from all over the country in the recruitment process.

4 camps

- 224 participants
- 40 Families
- 107 chronically ill children

7

EVENTS AND CAMPAIGNS

Our friends from Promelek XXI ran for Yuppi Camp at the Wizz Air Cluj-Napoca Marathon

"Every amateur runner dreams of completing a marathon. Then, ambitions grow, and the next goal becomes improving one's time. This is how a new dream is born: breaking the 3-hour marathon barrier," says Bogdan Tala, one of the charity runners.

34 charity athletes ran, cycled and walked for Yuppi Camp at the Run for IT! Ciuc

Among the charity runners were former campers, Yuppi volunteers, parents, and dear friends. One of them is Szilágyi Levente, who first stepped into the Yuppi camp ten years ago — never imagining that this moment would mark the beginning of a decade of heartfelt volunteering.

When the first edition of Run for IT! Ciuc was launched four years ago, Levente was among the first not only to run, but also to get involved in organising the event. Ever since, he has continued to carry the Yuppi message forward through Run for IT! Ciuc, persistently raising donations and proving that, alongside work and family life, there is always room to do good.

Determined swimmers made waves of good at Swimathon Oradea

"What impressed me the most was seeing so many people come together to do good in the world, to help, and to strengthen the community. The excitement created by each team made this event unmissable. The close competition between Team Yupiness and the other teams kept me on the edge of my seat, and in the end, Yupiness finished in 12th place, which makes me proud knowing that the Yuppi swimmers gave their all for such a beautiful and meaningful cause," shares Iulia, the project coordinator. The donations raised contributed to Yuppi Camp's project named 'Recreational Therapy at Băile 1 Mai Hospital', dedicated to hospitalised children.

The charity photo exhibition "Prin RURAL și URBAN" featuring works by Carmen Pop

"This event speaks directly to the human soul," said Bogdan Bob Rădulescu, ambassador of Yuppi Camp, at the opening of the charity photo exhibition "Prin RURAL și URBAN", signed and organised by Carmen Pop, photographer and close friend of Yuppi Camp. The opening took place at Casino – Centrul de Cultură Urbană in Cluj-Napoca, in a warm and intimate atmosphere. More than 100 guests attended, and many bid for the powerful images captured by Carmen, their generosity making it possible to fully fund the camp participation of 10 children living with chronic illnesses.

The Charity Anniversary of Perfetto Cucina Italiana Restaurant

"As long as he lived and was practising as a doctor, my father always helped people; I know he felt a close connection to Yuppi as well. In fact, his generosity helped me even now to encourage others to join my initiative to support children with chronic illnesses. When I told people that my father believed in this cause, they didn't hesitate to help," shares Szilágyi Kinga about her father, Dr. Iosif Szilágyi.

In 2024, Kinga opened the restaurant Perfetto Cucina Italiana in the heart of Cluj-Napoca. To mark their anniversary, the team decided to donate the entire day's proceeds — including the employees' wages, as the staff generously volunteered their work. Through this remarkable gesture, they made it possible for 10 chronically ill children to attend Yuppi camps free of charge.

Yuppi Camp activities reached children admitted to hospitals

Yuppi Camp volunteers brought a wide range of playful, fun, and creative activities to children admitted to the Pediatric hospitals in Cluj-Napoca and the Children's Recovery Hospital in Băile 1 Mai.

"I was so happy to meet the children — some of them for the first time, others again — and to read the enthusiasm on their faces. Their curiosity fascinated me, and the ease with which they opened up to our volunteers filled me with joy," shares Mara Oniga, the coordinator of the hospital activities project.

"I love the moment when we get organised, roll up our sleeves, and start setting up the space for the workshops. Even though we never know how many children will participate, every time I feel a great openness from them — a desire to get to know us and to play together. Many children told us they had to stay three weeks in the hospital before they could go home. It was deeply moving to be able to step into their world for a little while... and I was filled with gratitude knowing that, at least for a short time, we managed to bring a smile to their faces," confides Kinga Bakos, a volunteer at the activities held at the Children's Recovery Hospital in Băile 1 Mai.

**"A thousand scenarios.
One diagnosis." An audio
installation in the heart of Cluj.**

In mid-December, we set up a small house on Eroilor Boulevard in Cluj-Napoca. We created a space where silence was broken only by real, unfiltered stories — told directly and honestly, exactly as the children and parents who participated in Yuppi Camp chose to share them. Children and parents who faced a diagnosis of chronic illness, and then life alongside that illness.

We created this audio installation to give voice to the often unspoken realities behind illness. So that we might all better understand those who are going through these moments. To feel them closer to us. To connect more authentically. To no longer be "us" and "them."

Visitors had access to over 20 audio recordings featuring stories from children living with illnesses such as cancer, cardiovascular disease, diabetes, and other autoimmune illnesses. The materials were produced during the 2025 Yuppi Camp sessions.

You can also
listen to the
stories here:

Yuppi Camp Video • Diabetes, Emergencies, helplessness, hope. Chloe's story.

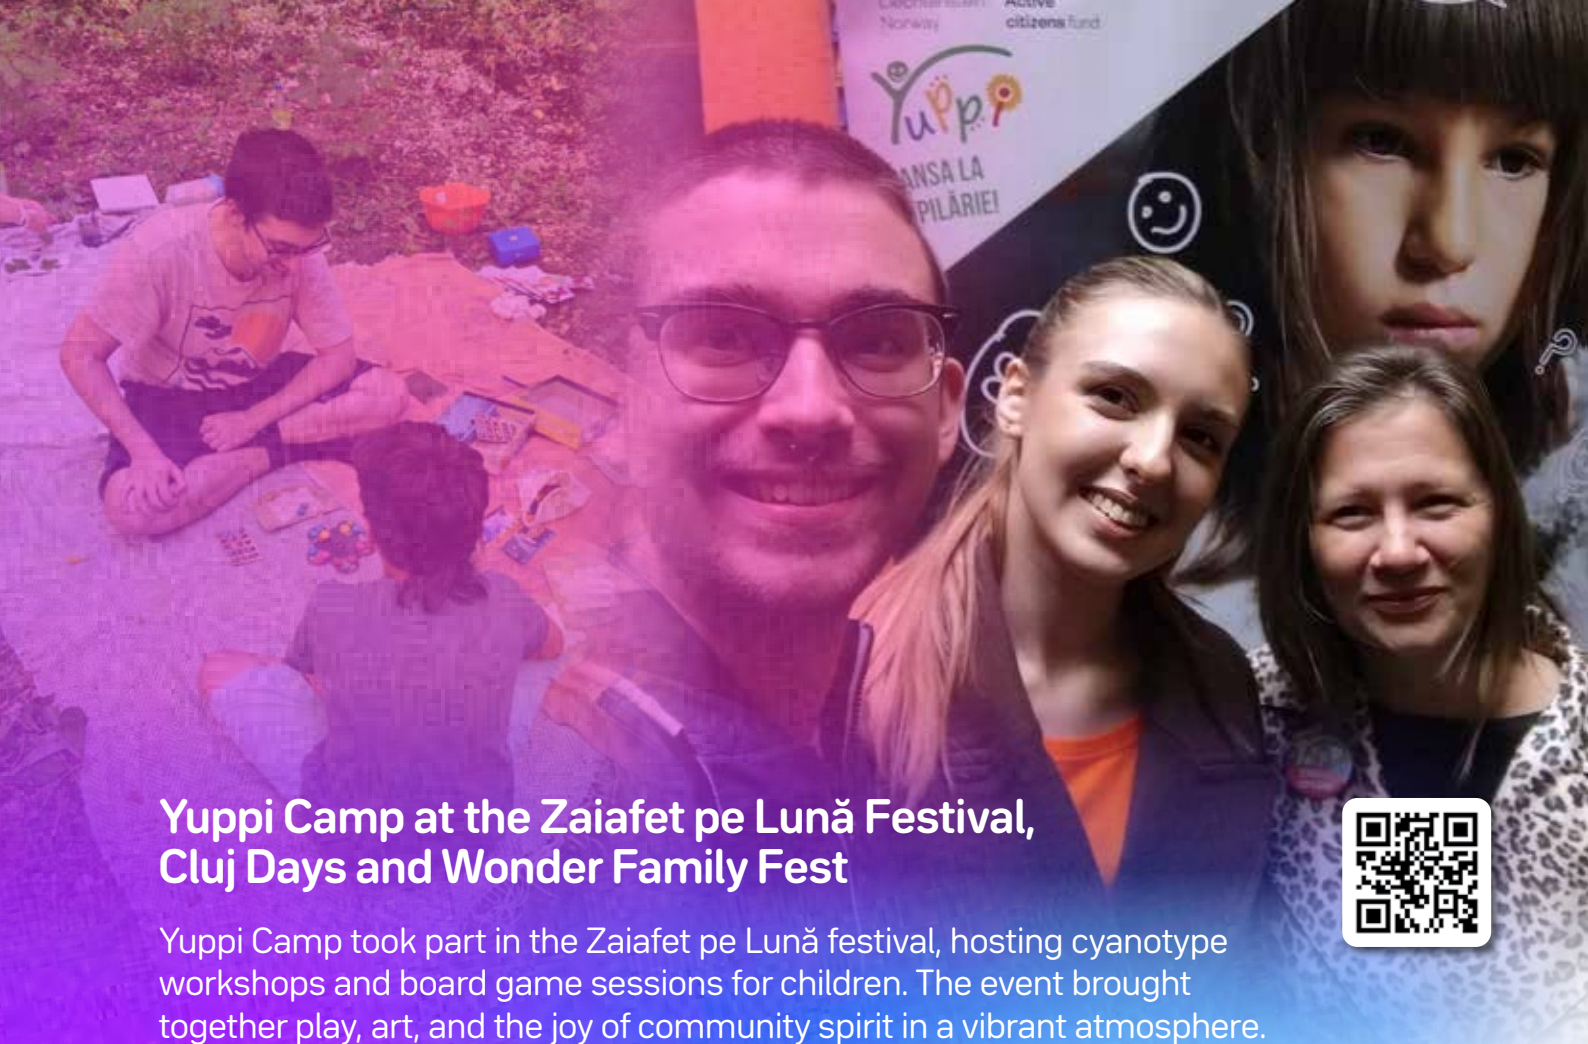

"I just want this to be over! I don't like it at all... I don't like having to carry my phone and the insulin pump, and that I can't eat whatever I want, especially by sneaking, and that's exactly what I want to do now, sneak some chocolate, but I can't because I have to tell Mommy what I ate... And that's what I don't like about diabetes."

These are the words of Chloe Serol, an eight-year-old girl whose childhood has been marked by ER visits, almost in a coma, and now the rhythm of her days is dictated by measurements, restrictions, and her parents' constant care. After the shock of the diagnosis when Chloe was just 1 year and three months old, sleepless nights, helplessness, and feelings of guilt followed.

Chloe's story and that of her family, shared in this video, is a window into a reality that many live in silence. But it is also a story of hope. It's about vulnerability, pain, but also the strength to smile again.

In this video, done together with the What's In The Box Productions team, you'll also discover how, at Yuppi Camp, children like Chloe find much more than just a camp - they find freedom, friends who understand them, and the courage to say "I can!". And the parents? They find a breath of fresh air from daily worries, community, and the solace of seeing their children simply being kids.

Yuppi Camp at the Ziafet pe Lună Festival, Cluj Days and Wonder Family Fest

Yuppi Camp took part in the Ziafet pe Lună festival, hosting cyanotype workshops and board game sessions for children. The event brought together play, art, and the joy of community spirit in a vibrant atmosphere.

At Cluj Days and Wonder Family Fest it was a great joy to meet so many talented children and parents and create together: the tote bags we painted turned out truly colourful and creative. Thanks to the generosity of the participants, the donations collected have fully covered the camp costs for a chronically ill child.

Yuppi Camp nomination at the Civil Society Gala

"We had the pleasure of attending the 23rd edition of the Civil Society Gala in Bucharest and were honoured to be nominated in the Social Campaigns category with the #IAmMyAdvocate project. During the event, we drew a great deal of inspiration and positive energy from the civil society organisations implementing remarkable projects in areas where the state reaches with difficulty or, in some cases, not at all," said Andrei Bulearcă, Fundraising Director at Yuppi Camp.

Nomination at the Di_ploma Awards by OPEN MINDS

We were delighted to attend the gala of the Di_ploma Awards competition, organised by OPEN MINDS in Bucharest, celebrating together the efforts to promote diversity and inclusion in the professional environment in Romania. Furthermore, we had the opportunity to participate in the Open Mind Conference, a dynamic event that brings together leaders from the NGO sector.

"During the conference, we had the opportunity to engage not only with colleagues from the NGO sector but also with representatives from Romanian businesses, artists, and educators — the most important pillars of diversity and inclusion in Romania," says Andrei Bulearcă, Fundraising Director at Yuppi Camp.

Celebration and children's activities at Bosch Engineering Cluj

At the end of the year, one of our dear friends and sponsors, Tobias Matter, Head of Bosch Engineering Center Cluj, said goodbye to Cluj-Napoca and Romania. Tobias has contributed to Yuppi with constant support, thoughtful advice, and genuine care for children with chronic illnesses. He was also part of the Association's Advisory Board, always being close to us and constantly and actively engaging in the life of Yuppi Camp.

We celebrated this moment together by bringing children's activities, games, and a small treasure hunt for the families of Bosch, in the same spirit of joy and care he always supported.

A playful celebration at E.ON Business Services Cluj

We celebrated our dear friend and sponsor, Stefan Blaster, managing director of E.ON Business Services Cluj, whose continuous support and genuine care for children with chronic illnesses made a real difference. Together with Yuppi volunteers, the families of the company joined in a joyful afternoon of magic tricks, face painting, and creating animal masks for children.

Chemical experiments with Gedeon Richter

As part of "Vâltoarea Sănătății", held during the "Vâltoarea Mureșeană" festival, the Yuppi team organised exciting chemistry and physics experiments for participating families, with the support of Gedeon Richter. Children had the chance to learn how the human heart and robotic hands work, while also making their own lava lamps and even drawing on water.

Teambuilding for employees of Topmotive

Fechită Lujza, Yuppi Camp's training coordinator, and Sînziana Cîrlan, assistant in the training department, held an energising teambuilding session for 54 employees of Topmotive in Târgu Mureș. *"The atmosphere was electrifying: the participants got involved actively and enjoyed the activities just like the children in Yuppi camps,"* says Lujza.

Waiting for Santa at E.ON Business Services Cluj

Yuppi brought the Christmas spirit to E.ON Business Services Cluj, keeping 60 children entertained with creative workshops, face painting, and a magic corner while they eagerly awaited Santa Claus.

Income and expenditure of Yuppi Camp in 2025

Year	Reserves
2021	50 573 €
2022	28 940 €
2023	46 917 €
2024	37 983 €
2025	-40 315 €
Total organisational reserves	124 098 €

Thanks to the consistent support of corporate sponsors and individual donors, we have been able to build up organisational reserves year after year. With their help, we can welcome the same number of children and families into our therapeutic camps and remain stable, even when the broader context becomes more uncertain.

In the first half of each year, we draw partially on these reserves to support therapeutic activities both in camps and in hospitals. In this way, we provide chronically ill children and their families with the same level of support they need.

This year, in a context where some sources of funding are harder to secure and costs are rising, these reserves help us bring as many smiles as possible to our hospital activities as well, which are now expanding.

Thank you for being by our side — because of you, we can continue to keep the promises we have made to children living with cancer, diabetes, or other autoimmune or serious illnesses.

On behalf of all the children
and families who have enjoyed
carefree days at Yuppi Camp,
thank you for giving them a
chance at childhood!

How much pain can a
mother's heart bear?

BUT a
CHILD'S
ILL HEART?

"We can't lose him. We prayed for seven years to have this child, we can't lose him. I kept telling myself that over and over while the doctors explained how serious the situation was.

Erik was born on a Friday and everything was perfect. I remember the first sound he made when he came into the world. On Monday, the doctors came for a check-up. We were supposed to go home, to finally be just the three of us. The doctor looked at the nurse. They didn't tell me anything, they just took the baby away from me.

Call the child's father, tell him to come now if he still wants to see him. That's what the doctors advised.

That's when I found out that Erik had a severe heart malformation – transposition of the great arteries, aortic stenosis, and a ventricular septal defect. The major arteries of the heart were crossed and blocked, blood was circulating with great difficulty, and there was a hole in the wall between the heart chambers.

He was only two weeks old when he had his first surgery. He wasn't even a month old when he needed the second one. Erik's heart was the size of a plum, and all I could ask was: *You've done this before, right? You can do this, can't you?*

Pray that we come out of the operating room, they told me. When they finally came out, it felt as if I had given birth to him all over again.

I wished then that childbirth had hurt me more, that I had suffered more, so he wouldn't have had to go through any of this. Open heart surgery, countless wires covering his tiny body, a terrifying number of medications.

The surgeries will continue until he is 16–18 years old, until his heart reaches maturity. **I wish I could take his place in those surgeries...**

Today, Erik is five years old and he doesn't talk much about what happened to him. **Once, I heard him telling a friend who had cut his hand not to worry, that it would heal, just like his little heart healed – but the scar remained...**

I am very grateful that here, at Yuppi Camp, I was able to leave him in the hands of the volunteers and trust that they would take care of him. Because that is also very hard."

Gabriela, Erik's mother, first-time participants at Yuppi Camp.

In 2025, for the first time in Romania, we welcomed in Yuppi Camp children with heart diseases. We don't want to stop here!

Just like Erik, hundreds of chronically and seriously ill children in Romania need help healing the wounds caused by illness. They need to learn not to be afraid.

HOW CAN YOU HELP CHRONICALLY ILL CHILDREN?

INDIVIDUALS

I WANT TO OFFER FINANCIAL OR MATERIAL SUPPORT

I would help with something other than money

In-kind donations

Many people would rather help us with donations of equipment and materials. Be one of them!

Redirection of 3.5% of income tax

It only takes a few minutes to complete Form 230, and this funding is very important to us every year.

I would help with money

Debit Direct

Support us with an amount in the value of three coffees each month for one year.

Cash or online donation on the website

You can support us at any time, with any amount of money through the Yuppi Camp website, or you can make a direct transfer to our bank account.

I WANT TO GET INVOLVED AND INVEST MY ENERGY AND RESOURCES

Charity sport

Join the Yuppi sports team. Together, through sports, we raise money for the camps.

Organise a charity event

Plan a movie night with friends, a coffee date or any charity event for Yuppi!

Birthday donation

Encourage your friends and family to donate the price of your birthday presents this year to Yuppi!

Volunteer in the organisation

Become a Yuppi Camp volunteer and help us grow the organisation!

COMPANIES

WE HAVE A BUDGET FOR SPONSORSHIP

sponsorship agreement

Partner with us year after year and help ensure the sustainability of our organisation! Redirect a FREE portion of your income tax to Yuppi Camp each year and help us help as many children with chronic illnesses as possible.

we (also) had budget last year

The law now allows you to also redirect tax retroactively. If you haven't already redirected your tax for the past year, you can file form D177 until June 25. Complete and submit the D177 form and ANAF will redirect 20% of the tax you have already paid for that year.

NO BUDGET FOR SPONSORSHIP

DONATIONS OF PRODUCTS OR SERVICES

Donate equipment and materials needed for camp activities and training. Support us through services which do not involve any costs to you, but for us are priceless! You will find our wish list on our website.

Through HR and CSR
- to customers -

Cause-related marketing

Donate a percentage or a fixed amount of the price of a product or service sold by your company to Yuppi Camps.

Yuppi branded products
(postcards, totebags)

Our charity partner

We organise events together.

Volunteering

Become a Yuppi Camp volunteer and help us grow the organisation!

Charity sport

Make a running team or swim team with your peers to support our camps!

Through HR and CSR department
- to employees -

Promoting individual support opportunities among employees

Direct Debit – support us with an amount in the value of three coffees each month for one year. Redirect 3.5% of your income tax by completing form 230.

Internal charity events

Are there people among your colleagues who like to cook or create handmade products? Organise a bake sale or charity sale together so they can show their talents to their colleagues! All corporate events can be enhanced with a charity partner.

Teambuilding / family day / training

Organise your team's Family Day, Children's Day, a teambuilding or Yuppistic-style training with fun activities, challenges and non-formal learning, online or at a location of your choice!

If you need more information on how you can support Yuppi you can also find out from our fundraising coordinator. Do not hesitate to contact us.
